DETAILED ACTION

This action is in response to the RCE filed 11/22/2005. Claims 1-14, 21-23 are pending in this application.

Allowable Subject Matter

1. Claims 1-14, 21-23 are allowed.
2. The following is an examiner's statement of reasons for allowance:
3. While MANN in view of WORNER as used in the previous rejection shows a variety of similar RFID manifestations similar to the current invention, neither of these references taken alone, in combination, or in combination with the prior art of record disclose the claim element "combines the product and workstation identification information and stores it in the database". It is this combining of the product and workstation identification information, in combination with the remaining elements and features of the invention, that the applicant's invention defines over the prior art of record. Examiner notes that the prior art of record shows saving the product ID and a workstation ID (or at least location information) in the database, but does not show any type of "combining" aspect as claimed.
4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance".
